Dear participants,

As the world has marked the 70th anniversary of the atomic bombings of Hiroshima and Nagasaki, the stories from Hibakusha will live on through younger generations. But the youth of today will not just continue to share these stories. You belong to a generation that grew up after the Cold War and you are better placed than anyone to see nuclear weapons for what they really are, inhumane, indiscriminate and unacceptable. YOU are the generation that will ban nuclear weapons.
